DESKTOP PHOTO PANELS

ChromaLuxe Desktop Photo Panels with keyholes and a kickstand offer a versatile way to display photo art on a desktop or wall. Designed for flexibility, each panel features mounting slots on all four sides of the back, allowing for both portrait and landscape orientation. Panels include a sleek black kickstand or a pre-attached easel, making it easy to transition from desktop display to wall presentation with minimal effort.

MDF display blocks come with pre-applied adhesive and keyhole.

Sub Frames for ChromaLuxe Panels

WHAT DOES A SUB FRAME DO?

- Floats the panel away from the wall
- Provides a way to hang the panel on the wall
- Gives the panel a substance and rigidity
- Push in corners shaped to prevent damage to the panel if it flexes in transit
- Bonds to the back of the panel with Heavy Duty Bonding Tape
