OUTDOOR

HD Printable Materials for Outdoor Applications

ChromaLuxe® Outdoor

For brilliant photography,
signage, and more

Display photography or signage outdoors with ChromaLuxe Outdoor metal prints, now with a 5+ year outdoor rating. Experience vibrancy, depth, and vivid colors with a durability that can withstand the elements.

Offerings:

- Cut panels up to 40" x 60" / 1016 x 1524mm
- Full Sheets (4' x 8' / 1200 x 2400mm)
- Half Sheets (4' x 4' / 1200 x 1200mm)

Substrate:

0.045" / 1.14mm aluminum | UV-resistant outdoor coating

Finishes:

Gloss White

Experience vibrancy and depth of color with our Gloss White finish. Colors pop and details come to life with the white base and thick high-gloss coating. This is an excellent finish for any subject, including landscapes, nature, action photos, water scenes, and more.

Gloss Clear

A high-gloss finish applied without the white base allows the natural silver of the aluminum to shine through. Detail and color remain, but with a unique effect that favors all types of photography. Images in black and white or vivid color find new meaning with our Gloss Clear finish.

Matte White

Our Matte White finish brings out the beauty of images while reducing glare. The finish provides a rich, smooth surface where colors can come alive with perfect subtlety.

The Science Beneath the **Surface**

Proprietary coatings specifically engineered to give prints a vibrant, durable, and long-lasting impact.

Dynamic Color

ChromaLuxe coatings deliver color and vibrancy beyond traditional printing, resulting in images that pop off the panel.

Depth of Image

Unlike surface print technologies, dye sublimation infuses ink directly into the ChromaLuxe coating, delivering a resonant depth of image often described as high-definition and three-dimensional.

Extreme Durability

Printing on top of the surface level compromises durability. ChromaLuxe captures images and seals them within the coating, providing unmatched resistance to fading, abrasion, moisture, chemicals, and more.

Cross-Linked Advantage

ChromaLuxe coating provides surface that is resistant to most forms of chemicals, bacteria, and pathogens. This cross-linked coating provides unmatched protection and allows for easy cleaning.

Outdoor Prints that Perform

Performance Properties

ChromaLuxe Outdoor gives users the ability to take prints outdoors or into direct sunlight with the image quality and durability they've come to expect from other ChromaLuxe products. These UV-resistant panels come in a variety of common sizes to serve the outdoor photography market.

Outdoor Life Expectancy of 5+ years!

Significant improvements to life expected in less harsh environments.
