ChromaLuxe®
4-Way French Cleat Hanging System™

Developed & Manufactured by PRG Professional™

Mounting ChromaLuxe® Panels is Faster Than Ever Before!

Looking for a **clean, simple, and fast** way to mount your ChromaLuxe panels? Look no further! Using patented 4WFC™ technology - our new, **lightweight** hanging system can be **installed in just seconds.** It features a rigid mounting polymer with 1/2" thick float mount for secure and stable display and comes standard with an **integrated level for easy, accurate installation.**

FEATURES AND BENEFITS

Compatible with Various Substrates
Ideal for Aluminum and Acrylic Prints

Quick & Easy Frame Assembly
Fully assembled within seconds

Integrated Level
Allows for an easy, accurate mounting

Permanent PSA (Pressure Sensitive Adhesive)
Made from permanent rubber adhesive, not acrylic - which is superior permanent mount tape

Versatile Mounting
Can be hung vertically or horizontally

100% Fully Recyclable
Made from E-PVC with 12% post-industrial regrind content

Scalable Product Offering
Available in both pre-packaged kits or bulk components

Made in USA
Domestically sourced raw materials, designed, engineered and manufactured

MADE IN THE USA

Fully Recyclable, Versatile Hanging System

The ChromaLuxe 4-Way French Cleat Hanging System™ simplifies the way you mount and hang your aluminum and acrylic ChromaLuxe panels. It allows you to hang your panels both horizontally or vertically, and is 100% fully recyclable - made from E-PVC with 12% post-industrial regrind content.

This mounting system simplifies installation to the fullest.

Smaller size panels utilize a 2-piece 45 degree French cleat and larger size panels utilize a 4-way 90 degree French cleat design. **Please refer to the master sizing chart to see what distance from the edge your cleats should be.**

When image matters, choose ChromaLuxe.

ChromaLuxe® 4-Way French Cleat Hanging System™
ASSEMBLY AND INSTALLATION INSTRUCTIONS

Follow these quick and easy steps to assemble and install your ChromaLuxe 4-Way French Cleat Hanging System, or scan the QR code to watch our how-to video!

Parts List:

- (2x) Long Section
- (2x) Short Section
- (1x) Leveling Wall Cleat
- (2x) Screws
- (2x) Wall Anchors

1

Assemble the frame by connecting the corners of the four frame sections.

2

Clean the back of the ChromaLuxe® panel with isopropyl alcohol.

3

Measure from the edge of the panel using the included measurements.

4

Remove the backing paper from the adhesive strips.

5

Align the hanging system with the measured marks on the panel.

6

Firmly press down on the entire perimeter to ensure full adhesion on all sides.

7

Using the provided leveling wall cleat and a pencil, mark the drill holes in the desired mounting location.

8

Hang the prepared ChromaLuxe® panel,ensuring the panel is centered on the leveling wall cleat.

Your ChromaLuxe® 4-Way French Cleat Hanging System™ installation is now complete.
